Neil is the President of the Oil Painter's of America. [neilpatterson.com/](http://neilpatterson.com/)

The focus of this workshop will be colour. Colour is the essence of painting. This workshop will explore how colour can be used to show value, light, depth and emotion. Neil uses an impressionistic "Alla Prima" style of painting to convey his ideas to his students through landscapes and florals in both Plein Air and studio painting. Daily sessions will include demonstrations by the instructor, extensive individual help and coaching as well as group discussions and critiques.
